

Selection at the AMSE Conference-2010

Prague, Czech Republic, 22-25 June, 2010

	<u>Page</u>
1. <i>A multi-input multi-output artificial neural network model for prediction of mechanical properties during strip rolling of high strength low alloy (HSLA) steel.</i> S. K. Das; Sabita Kumari (India).....	1
2. <i>Temperature analysis of masonry structural members subjected to fire.</i> R.Stefan; J.Procházka (Czech Republic).....	11
3. <i>Dynamic simulation of decision criteria in regional development.</i> Omar Gonzalo Ruíz Santamaría (Czech Republic).....	21
4. <i>Modelling and simulation of hydraulic turbine power control.</i> Emil Garipov; Teofana Puleva (Bulgary)	31
5. <i>Analysis of heat and mass flows in concrete at high temperatures.</i> M. Benes (Czech Republic).....	41
6. <i>Simulation and experimental implementation of an active controlled two-axle railway Bogie.</i> Jan Kalivoda (Czech Republic).....	51
7. <i>Mandani model based grading system for students evaluation in examination-A case study of Close, India.</i> Pratibha Dewangan; Natalia Pokorna; M. F. Qureshi (India-Czech.Republic)...	61
8. <i>Modelling of entropy-driven nucleolar self-assembly.</i> Michaela Blaziková; Petr Herman; Jan Malínský (Czech Republic).....	72
9. <i>Enhanced fade depth model for extremely wideband channels.</i> V. Sipal; B. Allen; D. J. Edwards (United Kindom).....	82
10. <i>Feature extraction and imaging methods in electromagnetic non-destructive testing of metallic materials.</i> P. Burrascano; M. Ricci (Italy).....	92
11. <i>Optimization of dynamic properties of a test bed for testing of the machine tools telescopic covers.</i> E. Stach (Czech Republic).....	101
12. <i>State space model extraction of thermo hydraulic systems. A network approach.</i> K. R. Uren; G. van Schoor	112
13. <i>Double degree of freedom auto-parametric system stability under random excitation.</i> J. Náprstek; C. Fischer (Czech Republic).....	122
14. <i>Numerical analysis and design of spherical FRP dome.</i> T. Hara (Japan).....	132
15. <i>Computer modelling and finite-element based behaviour simulation of wire strands and ropes.</i> E. Stanova; G. Fedorko; M. Fabian; S. Kmet (Slovak Republic)	142

16.	<i>Simulation of deformation of high-void-content cementitious materials.</i> T. Tsubaki; H. Tamaoki; T. Natsume (Japan)	152
17.	<i>Mechanical properties of carbon nanotubes.</i> M. Sato (Japan-UK).....	162
18.	<i>The finite element method in vehicle development at Skoda auto a.s.</i> J Korous; Skoda Auto a.s (Czech Republic).....	171

Selection at the AMSE Conference-2010

Barcelona-Spain, 15-17 July, 2010

	<u>Page</u>
– <i>Measuring sustainability performance through fuzzy logic.</i> E. Escrig; J. M. Rivera; M. J. Muñoz; M. A. Fernández (Spain).....	1
– <i>The influence of barrel rifling twist on the stability of a projectile.</i> Iyd Eqqab Maree (Iraq).9	9
– <i>5Gb/s low noise and high bandwidth 0.35µm CMOS transimpedance amplifier.</i> H. Escid; M. Attari (Algeria).....	15
– <i>Business modelling eCRM systems: applying UML specifications.</i> Calin Gurau (France)...25	25
– <i>Spring brake orthosis for FES-Assisted walking with wheel walker.</i> R. Jailani; M. O. Tokni; S. C. Gharroni (Uk).....	32
– <i>Multiple criteria decision making modelling: A AHP method application to production layout.</i> R. De C. Fino; F. A. S. Marins; V. A. P. Salomon (Brazil).....	43
– <i>A tool for objectives definition in the MKDD methodology for data mining studies.</i> A. M. Gil Lafuente; E. Vizuete Luciano; S. Boria Reverter (Spain).....	51
– <i>Incorporation to inflation expectation in indexed bans.</i> A. Fernández Bariviera; M. J. Gabajosa – Cabello; M. B. Guercio (Spain).....	58
– <i>A business intelligence software made in Romania, a solution for Romanian companies during the economic crisis.</i> E. Edelhauser; A. Ionica (Romania).....	69
– <i>Hybrid monitoring of capillary distribution system in the food chain of different locations south of Bogotá.</i> O. J. Herrera (Colombia).....	79
– <i>Fuzzy decision making with probabilities and induced aggregation operators.</i> J. M. Merigó; K. J. Engemann (Spain-USA)	88
– <i>Structural optimization of fuzzy controllers' base of intellectual rules.</i> Y. P. Kondratenko; L. P. Klymenko; E. Y. M. AL Zu'bi (Ukraine-Saudi Arabia).....	99
– <i>Machinery replacement procedure using fuzzy analysis.</i> F. González Santoyo; B. Flores Romero; J. J. Flores R. Chávez; A. M. Gil Lafuente (Mexico-Spain)	109
– <i>Introducing fuzzy numbers in the study of the viability of a treasury forecast.</i> S. Linares; J. C. Ferrer; E. Cassú; D. Corominas (Spain).....	118
– <i>The optimization of investment in POS advertising through a fuzzy model based on the application of neuromarketing techniques.</i> J. Gil Lafuente; J. M. Tortosa; J. Aymerich Martínez (Spain)	126
– <i>Thermomechanical treatment of 7020 Al Alloy.</i> J. Shawnim Rasheed (Iraq)	136
– <i>Conception and simulation of the quarter wave rectangular patch antenna in the band S.</i> A. Oulad Said; A. El-Ouadih; A. Latif (Morocco).....	146
– <i>Decision making techniques in a unified model between the weighted average and the OWA operator.</i> J. M. Merigó; A. M. Gil Lafuente (Spain)	156

- *Overall approach to the solution of applied problems.* V. Krasnoproshin; V. Obraztsov; H. Vissia (Belarus – The Netherlands).....166
