

Contents- Advances C, 2014

Vol. 69, n°1

- A new mean-square stabilization criterion for networked systems with network induced time delay and packet dropout.
Yao, H.; Yuan, F. (China) 1
- Power system transient stability enhancement with SMES using four quadrant active and reactive power control.
Moudjahed, M; Bekki, B.; Boudiaf, M. (Algeria) 12
- Static output feedback sliding mode control for nonlinear systems with delay.
Yao, H.; Yuan, F. (China) 28
- Steady state stability analysis of a CSI fed synchronous motor drive system with damper windings included using ANFIS.
Srikant, P.; Jha, M.; Qureshi, M.F. (India) 39
- Static output feedback variable structure control for a class of time-delay systems.
Tian Y.; Yao, H.; Yuan, F. (China) 58
- Intelligent control systems and performance analysis of PMDC motor drives.
Titus, S.; Pandiyan, R. (India) 69
- Design of genetically tuned interval type-2 fuzzy PID controller for load frequency control (LFC) in the unregulated power system.
Singh, A.; Jha, M.; Qureshi, M.F. (India) 85

Contents- Advances C, 2013

Vol. 68, n°1

- Design of adaptive grey fuzzy PID controller with variable prediction step-size for power system dynamic stability control and its on-line rule training.
Jha, M.; Qureshi, M. F.; Srivastav, P. (India)..... 1
- Adaptive neuro-fuzzy modeling for throttle control governing.
Bharti, I.C.; Qureshi, M.F.; Banjare, Y.P. (India) 22
- Sliding mode control and fuzzy logic control of hydraulic robot manipulator.
Rouabah, Z.; Abdelhadi, B.; Anayi, F.; Zidani, F. (Algeria)..... 36
- Differential evolution approach for optimization of AGC after deregulation using capacitive energy storage.
Raja, J.; Christober Asir Rajan, C. (India)..... 49
- A smart virtual platform for field programmable gate array (FPGA) based process control development and its implementation.
Bhaskarrao, N.K.; Vaidyan, V.M.; Vaidyan, M.V. (India)..... 66
- GARIC-Approach of hybrid system control for real-time system stabilization.
Qureshi, M.F.; Jha, M.; Rathore, A. (India)..... 76

Vol. 68, n°2

- A 20-year survey on general modeling of synchronous motor and its stability studies. Part II: literature review and case study.
Chattopadhyay, A.B.; Thomas, S. (United Arab Emirates)..... 1
- A 20-year survey on general modeling of synchronous motor and its stability studies. Part I: first literature review.
Thomas, S.; Chattopadhyay, A.B. (United Arab Emirates)..... 20
- Designing power system stabilizer for system damping for transient disturbances using grey ANFIS technique.
Jha, M.; Qureshi, M. F.; Srivastav, P. (India)..... 36
- Fuzzy logic control of induction machine presenting defective rotor bars.
Belhamdi, S.; Goléa, A. (Algeria)..... 54
- Torque ripple minimization in permanent magnet synchronous motor using neural networks.
Adhavan, B.; Jagannathan, V. (India)..... 65

Vol. 68, n°3

- Evolutionary interval type-2 fuzzy logic controller in power system transient stability analysis.
Jha, M.; Singh, A.; Qureshi, M. F. (India) 1
- Optimization of parameters of gain scheduling controller for a nonlinear plant based on genetic algorithms.
Rathikarani, D.; Sivakumar, D.; Sivanandam, S.N. (India) 19
- Design of interval type-2 fuzzy logic based controller for DC drives.
Thakur, V. S. ; Jha, M.; Qureshi, M. F. (India) 34
- Comparison of performance characteristics of PM BLDC Motor with PWM and hysteresis controller.

Salah, W.A. (Malaysia) 53

Vol. 68, n°4

- Interval type-2 fuzzy logic control of speed of thyristorized three phase induction motor under various load torque.
Thakur, V. S. ; Jha, M.; Qureshi, M. F. (India) 1
- Development of interval type-2 fuzzy based control model of steam turbine governing system of power plant.
Jha, M.; Triverdi, R.; Qureshi, M. F. (India) 22
- PEM fuel cell powered UPS systems with linear quadratic regulator for critical load design, modelling and simulation.
Benaissa, A.; Rhabi, B.; Moussi, A.; Dahmani, A 42

Advances C, 2012

Vol. 67, n°1

- *Development of interval type 2 fuzzy logic controller to simulate automatic voltage regulator behavior in excitation control of power system.* Manoj, Jha.; Qureshi, M. F.; Manoj, S. (India) 1
- *Robust power System stabilizer using linear matrix inequality based control with pole placement for damping low frequency oscillation in power system.* Narasimha Rao, K. D. V.; Paul, S.; Sil, A.(India)23
- *Sliding mode control and fuzzy logic control of hydraulic robot manipulator.* Madhusoodanan, K. R.; Ushakumari, S. (India)43
- *Pittsburgh approach of genetic fuzzy system control for real-time power system stabilization.* Qureshi, M. F.; Jha, M.; Rathore, A.; Singh, A. (India)60

Vol. 67, n°2

- *Intelligent optimal control of a heat exchanger using interval type-2 and adaptive network based fuzzy inference system. A new approach.* Borkar, P. K.; Jha, M.; Qureshi, M. F. (India) 1
- *Finite-time control of networked control systems a linear transformation approach.* Shang, Y.; Gao, F. Yuan, F. (P.R. China)20
- *Robust finite-time control of nonholonomic systems with strong nonlinear drifts.* Gao, F.; Yuan, F.; Yao, H. (P.R. China) ...31
- *Balancing free reduction algorithm for singularly perturbed stable/unstable systems.* Bhagat, S. K. (India).....45
- *Advanced robust adaptive power system stabilizer based on linear and non-linear control techniques.* Naceri, A.; Abid, M. (Algeria)60

Advances C-2011

Vol. 66 n° 1

Page

- *Model order formation of large scale linear systems using adjunct polynomial and modified particle swarm optimization technique.* S.N. Deepa; G. Sugumaran (India).....1
- *Fuzzy control of chaos in current mode controlled DC Drive.* G.K. Panda; P.K. Saha (India).....20
- *Sliding mode control of asynchronous machine presenting defective rotor bars.* S. Belhamdi; A. Golea (Algeria).....39
- *Field programmable gate array (FGPA) implementation of fuzzy (PD & PID) controller for insulin pump in diabetes.* R. Harikumar; A. Schanmugan; V.K. Sudhaman (India)50

<u>Vol. 66 n° 2</u>	<u>Page</u>
– Incorporation of inter line power flow controller in newton's power flow analysis. R. Mahalakshmi (India).....	1
– Microsecond timekeeping to improve power system control & operation. A. Chakrabarti; A.K. Mukhopadhyay (India).....	12
– Modelling and simulation on direct torque control (DTC) system for electric vehicle (EV) induction motors. A. Arif; A. Betka; A. Guettaf (Algeria).....	28
– Voltage stability margin of radial distribution systems considering reactive loading index. S. Banerjee (India).....	42
– Variable structure control (VSC) for a class of uncertain discrete-time large-scale systems with delays. H. Yao; F. Yuan (China).....	56

Advances C-2010

<u>Vol. 65 n° 1</u>	<u>Page</u>
– “Fuzzy logic based on-line load flow solution under normal contingency conditions of electrical power systems”. H. Kubba (Malaysia-Iraq)	1
– “Design and implementation of an intelligent controller for a split air conditioner with energy saving”. C. Ahilan; S. Kumanan; N. Sivakumaran (India).....	21
– “Synthesis of a decoupler like interaction reducer for closed-loop control of multivariable systems”. C. Selvakumar; R. C. Panda; V. Vijayan; M. Bharathi; R. A. Ramanujam; A. B. Mandal (India).....	41
– “Comprehensive model of a trapezoidal permanent magnet less brushless DC (PMBLDC) motor and drive system performance with PI speed controller”. V. M. Varatharaju; B. L. Mathur; K. Udhayakumar (India).....	55

<u>Vol. 65 n° 2</u>	<u>Page</u>
– “Sliding mode linearization and H_{∞} controller applied to an induction motor”. H. Benderradji; A. Makouf (Algeria).....	1
– “Artificial neuro-controllers for an isolated wind energy conversion scheme”. P. S. Mayurappriyan; Jovitha Jerome; K. Rajambal (India).....	18
– “Classical control design in delta domain by optimal generalised moment matching using genetic algorithm”. P. Sarkar; N. Chandra Sarkar; M. Buyan (India)	35

Advances C-2009

<u>Vol. 64 n° 1</u>	<u>Page</u>
– “Fuzzy interval theory based governing control and excitation control for stability of power system”. M. F. Qureshi; Jha Manij; Sao Gopi (India)	1
– “Sliding mode control application to the doubly fed asynchronous machine supplied by current sources”. Y. Harbouche; L. Khetta; R. Abdessemed (Algeria).....	15
– “Application of interval type-2 fuzzy logic method for real-time power system stabilization”. M. F. Qureshi; G. Sao; S. Berde; V. Thakur (India).....	27
– “Modelling and realization of a programmable thermic regulator using fuzzy logic algorithm: comparison with PI Controller”. A. Malaoui; K. Quoth; M. Ankrim; M. Abderrahim (Morocco-France-Spain)	47
– “An experimental study towards the selection of operating point for a DC attraction type levitation system”. S. Banerjee; B. Bhaduri (India).....	63
– “Design of controller based on variable transformation for a nonlinear process and real time implementation using dspace”. N. Jaya; D. Sivakumar; R. Anadanatarajan

(India).....
.....76

Vol. 64 n° 2

- “H-Infinity controller design for the descent phase of a reusable launch vehicle”. N. Juno; S. Ushakumari; Gopal Gee (India).....
.....1
- “An adaptive predictive fuzzy logic for the altitude control of a micro-satellite”. R. Nagarajan; M. P. Paulraj; Sazali Yaacob; Zaridah Mat Zain; Rosfariedzah Rusli (Malaysia).....
.....16
- “Design of a decoupler for closed-loop control of multivariable systems”. C. Selvakumar; R. C. Panda (China).....
.....29
- “Robust H_{∞} State estimation for uncertain discrete-time systems based on linear matrix inequality (LMI) methods”. Xue-bo Jin (China).....
.....49
- “Harmonic reduction in sinusoidal pulse width modulation (SPWN) based cascaded multilevel inverter-A soft computing approach”. P. Muruthu Pandi; N. Devarajan (India).....
.....58
- “Reactive power compensation and voltage stabilization for wind farms using a novel FACTS controller”. K. Malarvizhi; K. Baskaran (India).....
.....78

Advances C - 2008

Vol. 63 n° 1

- “Advance application of fuzzy neuro modelling and simulation methods using nefcon model for throttle valve governing in turbine in power plant”. Qureshi, M. F.; Bharti, I. C.; Om Prakash (India).....
..... 1
- “A genetic based mixed H_2/H_{∞} optimal PID power system stabilizer”. A. Chowdhury; K. B. Datta; P. B. Duttagupta (India).....
..... 17
- “Intelligent modelling of continuous stirred tank reactor”. U. Sabura Banu; G. Uma; T. R. Rangaswamy (India).....
..... 31
- “Model reduction of multivariable linear time invariant discrete systems using genetic algorithm”. S. N. Sivanandam; J. Suganthi (India).....
..... 51
- “Robust H_{∞} control design with σ – stability for uncertain linear systems with time varying state and control delays”. El Houssine Tissir; Fatima El Hoaussi (Morocco).....
..... 69

Vol. 63 n° 2

- “A particle swarm optimisation approach for linear discrete system model reduction”. S. N. Sivanandam; S. N. Deepa (India).....
..... 1
- “An evolutionary approach for the design of PID controllers to stabilize linear time invariant systems (LITS)”. S. N. Sivanandam; J. Suganthi (India).....
..... 17
- “Adaptive nonlinear control of AC/DC PWN converter feeding induction heating”. A. Hadri-Hamida; A. Allag; S. M. Mimoune; S. Zerouali; A. Bentounsi; M. Y. Ayad (Algeria-France).....
..... 40
- “Speed control of a separately excited DC Motor using neural network controller”. B. Maheshkumar; G. Ravi; R. Chakrabarti (India).....
..... 52
- “Control of double feed induction machine using direct torque control”. L. Benalia; A. Chagni; R. Abdessemed (Algeria).....
..... 64

Vol. 63 n° 3

- “A particle swarm optimization (PSO) for model reduction of linear time invariant continuous systems (LTICS)”. S. N. Sivanandam; S. N. Deepa (India).....
..... 1
- “Singular perturbation method applied to the discrete Euler-Lagrange free-end point optimal control problem”. M. S. Krishnarayalu (India).....
..... 16

–	“Integrated fuzzy – pi controller for mixed hydro-thermal power system”. K. Kumar; M. D. Singh; A. K. Singh (India).....	30
–	“Intelligent control of the unified power flow controller using a hybrid approach”. S. Zebirate; A. Chaker; A. Feliachi (Algeria-USA)	44
–	“Application of multilayer perception tuned co-active neuro-fuzzy inference system for governing control and excitation control of power system stability”. M. F. Qureshi; Manoj Jha, I. C. Bharti (India).....	62

Vol. 63 n° 4

–	“Soft computing based governing control and excitation control for stability of power system”. M. F. Qureshi; M. Jha; I. C. Bharti (India).....	1
–	“A simulation study of the regulation of a micro-hydroelectric power plant”. M. Chennani; S. Doubabi (Morocco).....	12
–	“Indirect adaptive fuzzy coordinated excitation and SVC control for multi-machine power system”. B. Bouchiba; A. Hazzab; M. A. Fellah (Algeria).....	28
–	“Improving dynamic and transient stability of power system using natural logic controller; a modified mamdani’s fuzzy controller”. M. F. Qureshi; I. C. Bharti; Manoj Jha; O. Prakash (India).....	50
–	“Stability analysis of a class of discrete fuzzy control system”. S. N. Sivanandam; S. N. Deepa (India).....	64

Advances C – 2007

Vol. 62 n° 1
